LEXINGTON, KY 40546

***Tuesday April 17th at 10:00 AM and 6:00 PM***

**"Proven" Perennials for Central Kentucky**

These days there are so many perennials out there it is hard to know which is best for our Kentucky gardens. Participants in this session will learn what varieties are tried and true performers in our crazy central Kentucky climate. Each participant will receive a sampling of plants to plant in their own gardens as well. Supply fee \$25.00, register by April 1st.

***April 24th at 10:00 AM and 6:00 PM***

**Shrubs With Multi Season Interest**

Shrubs aren't just plants to put out around houses to hide the foundation anymore! In this session we will discuss shrubs that will fit into your landscape whether as accents plants, foundation plants, specimen plants, or for pollinator food and habitat. The one thing all of these plants will give you is garden interest for more than one season! Participants will take home five shrubs to try as well. Supply fee \$25.00, register by March 15th.

***Tuesday May 8th at 10:00 AM and 6:00 PM***

### **Easy Roses For Any Perennial Garden**

Roses are the Queens of the flower world, however they have a reputation for being difficult to grow! Join us for a look into everything you could ever want to know about growing great roses.

We are going to emphasis variety selection so that you will be a successful rosarian. Each participant will take home one each of the following roses in quart pots: Julia Child, Livin La Vida, Oso Italian Ice, At Last, and Oso Double Red . Supply charge \$25.00, register by April 15th.

***Tuesday May 15th at 10:00 AM and 6:00 PM***

### **Handsome Hydrangeas**

Hydrangeas as a plant family have undergone a renaissance so to speak in the last several years with multiple breeding programs ongoing across the country. We will look into how to select and grow the right cultivars for your

needs. Each participant will take home one each of the following hydrangeas in quart pots: Incrediball, Let's Dance Rave, Little Lime, Tuff Stuff Ah-Ha, and Ruby Slippers. Supply charge \$25.00, register by May 1st.

***Tuesday October 9th at 10:00 AM and 6:00 PM***

### **Fall Blooming Crocus**

Many of you might not realize there are several varieties of crocus that bloom in the fall! The most famous of which is the saffron crocus. In this session we will cover the complete list of these fall bloomers and how to get them

established to have a great fall display! Each participant will receive bulbs to plant at home. Supply fee \$10.00, Register by September 1st.

***Tuesday October 16th 10:00 AM and 6:00 PM***

### **Gardening For Winter Interest**

It is no secret that I am not a fan of winter, however by adding plants that give interest in the winter it sure does make it more bearable. In this session I will discuss plants to add to your landscape and perennial beds that will make for a great winter display! It's not just you that will benefit either. Free!

***Tuesday October 23rd at 10:00 AM and 6:00 PM***

### **Trees That Feed Wildlife**

Whether you like to hunt, just watch wildlife, or just want easy to grow multipurpose trees this class is for you. Here we will explore the best trees that will feed you and our furry friends and you wont need to feed corn and other grains again. FREE! Register by October 1st.

**Tuesday September 18th at 10:00 AM and 6:00 PM**

**Building Great Soil Without**

**Breaking The Bank Or Your Back**

There isn't a gardener out there that wouldn't like to have richer healthier soil, however for many of us that can be expensive and physically challenging. Participants will learn how to build great soil with little effort or money. Free!

**Tuesday October 2nd at 10:00 AM and 6:00 PM**

**Growing Tree Peonies In Kentucky**

There are few plants or plant families that are revered as much as the peony! Tree peonies are considered the most magnificent of all peonies. The kings and queens of the species if you will. Tree peonies are slow growers and have a reputation for being a little more difficult to establish than herbaceous peonies. In this session we will discuss the history, culture, establishment, and variety selection. Although tree peonies are expensive and can be slow growers you need to remember that these plants if cared for will be in your garden for a lifetime! If you haven't purchased a tree peony before you might be in sticker shock so keep in mind this deal won't come along again soon! Each participant will receive a tree peony to grow at home! Supply fee \$25.00, register by August 15th!

**Tuesday May 22nd at 10:00 AM and 6:00 PM**

**What Was Old Is New Again!**

Three plants that were in every flower garden a century ago where zinnia, marigold, and cockscomb. This easy to grow from seed trio have went through many changes over the years but they are still three of the best annuals for our Kentucky gardens! Join us for a historical look at these heirloom annuals and how they have changed yet stayed the same! Each participant will take home multiple varieties of seed to plant at home. Supply charge \$10.00, register by May 1st.

**Tuesday June 12th at 10:00 AM and 6:00 PM**

**The Orchid Cactus - An Uncommon Beauty**

Orchid Cactus (Epiphyllum) isn't an orchid at all but a cactus that is an epiphyte. Epiphytes are plants that grow on other plants but aren't parasitic. You may have heard of the most famous orchid cactus the Night Blooming Cereus. Orchid Cactus makes a beautiful blooming houseplant as long as you follow a few simple tips! Join us for a look into this unique family of plants. Each participant will receive at least one plant to grow at home. Supply fee \$10.00. Please register by May 1st.

***Tuesday June 19th at 10:00 AM and 6:00 PM***

### **Water Gardening In Containers**

Water features give added interests and plant types to landscape and garden areas. In ground water gardens can be a maintenance nightmare, however container water gardens are easier to maintain and portable!

Join us to learn how to add a container water garden to your landscape. FREE!

***Tuesday June 26th at 10:00 AM and 6:00 PM***

### **Weed ID and Control**

Controlling weeds is one of the toughest jobs gardeners have to deal with! In this session we are going to have a basic stump the agent class. Bring in samples of the weeds that are your worst enemies and I will identify them and give you strategies on how to control them. We will ID and discuss the weeds and their control as a group. FREE!

***Tuesday August 14th at 10:00 AM and 6:00 PM***

### **Fall Cole Crops**

We are lucky in Kentucky to have a nice long growing season making it possible to have a spring and fall vegetable garden. We will look at all the cole crops you can grow in the fall with a few free plants! FREE! Register by August 1st

***Tuesday August 21st at 10:00 AM and 6:00 PM***

### **Growing Oyster Mushrooms At Home**

Many of you may not be familiar with oyster mushrooms, however they are easy to grow and delicious however expensive! Join us for a complete how to on growing your own oyster mushrooms at home. This will be a hands on class with you taking home a bag of inoculated media ready to grow. Supply fee \$5.00, register by August 1st.

***Tuesday August 28th at 10:00 AM and 6:00 PM***

### **Leaf Castings**

Another hands on class! Participants will make castings using a cement mixture. Castings can be used as garden art, bird baths, or even a shallow planter.

**Please bring a large leaf with pronounced veining to cast.**  
Supply fee \$5.00, register by August 10th.

***Tuesday September 11th at 10:00 AM and 6:00 PM***

### **Overwintering Tropical Plants Indoors**

Tropical plants can make a tremendous addition to garden areas because of their unusual shapes and colors, however they can be expensive! Join us for a look into how to successfully overwinter your favorite tropicals indoors so you can save money and enjoy them year after year. FREE!
